

## **Avnet Provides Relief for Central U.S. Flood and Tornado Victims**

In June 2008, brutal storms with heavy rain and tornadoes swept through the Midwestern region of the United States. Massive flooding and other devastation from Kansas to West Virginia displaced hundreds of thousands of people. In our continuing efforts to help those in and around our communities, Avnet partnered with the American Red Cross. From June 23 through July 12, 2008, Avnet employees donated \$2,680 to help provide relief supplies to the people affected by these severe weather disasters. With Avnet's match, the grand total was \$5,360.

"For every dollar raised and every employee who contributed to this and the recent relief efforts for China's earthquake, thank you," says Teri Radosevich, vice president of community relations.
