Need Help Creating Your Solutions Dream Team?

Let Avnet Technology Solutions help you discover the team you’ve been looking for. Through our Strategic Talent Acquisition Referral Services program (STARS), a team of expert recruiters will take on the challenge of discovering your very own “solutions” dream team. Let STARS accelerate your success; we’ll staff you with a team of professionals that will enable complete solutions selling!

What is STARS?

STARS offers you an innovative, cost-effective, recruiting solution to drive the acquisition of a stellar team possessing the knowledge, skills and attitude needed to deliver success within your goaled portfolio.

Why STARS? Why Now?

Avnet Technology Solutions has helped its technology partners profitably architect, sell and deliver the best solutions to their customers for more than 50 years, so who better to help you put together your personal dream team? With STARS, Avnet can help partners search, recruit and staff up for success.

We know how much effort goes into the recruitment process: searching through endless résumés, developing targeted job postings, sending countless e-mails and making phone calls, not to mention the time it takes to interview candidate after candidate—all too often resulting in unimpressive applicants. And in today’s economy, the task can be even more daunting.

Let Avnet take on your talent search. We deliver diverse and highly qualified solutions experts that will accelerate your path to profit and overall organizational success.

Ask about STARS today! Get staffed for success by sending your request to joinstars@avnet.com.

Avnet Technology Solutions is an operating group of Avnet, Inc. (NYSE:AVT) with locations in more than 30 countries. As a leading distributor of IT solutions, Avnet improves how technology products and services are defined and delivered to businesses worldwide through the channel. We enable solution providers to grow faster by helping them understand and meet their customers’ unique business requirements and industry-specific needs with unified solutions that combine technologies and span supplier lines.
