

Out of Country Medical Coverage

No one wants to fall ill—especially when they are far from home. If you do get sick, many medical facilities require immediate payment from foreign patients. The ACE Out of Country Medical Benefit provides up to \$250,000 in medical benefits* for travelers venturing abroad on Avnet business. It can even make direct payments or guarantee payments to a facility, whenever possible. This prevents you from having to make upfront payment. Referrals and case management by practicing physicians and nurses are available as well.

Before you leave on a trip, visit the website below to get a full country report and check out current local health and security conditions.
